Art Unit: 3728

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-25, 31, 32, 35, 36, and 38, drawn to a shoe or insole.

Group II, claim(s) 26-30, 33, 34, 37, 39, and 40, drawn to a method of using a shoe/insole.

2. The inventions listed as Groups I and II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: the shoe/insole claims do not require fitting or any treatment of the foot of a wearer as required in the method of use claims. It is noted that the claims are written in a very confusing manner, i.e. method claims dependent from article claims, the above restriction has been made to the best of the Examiners' ability in view of the confusing arrangement of the claims.

3. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
